## Recommendations for Use

---

Face shield is to be used in accordance with CDC recommendations to cover the front and sides of the face and provide barrier protection. Face shield is intended to be a single use item. However components may be cleaned by the following means. Recommend complete submersion in these solutions to ensure 100% coverage.

Component	Method	Conditions
Shield	Isopropyl alcohol	75-99%, 5 minutes
	Bleach (sodium hypochlorite)	0.1%, 5 mins+
	Ethanol	70-80% maximum, 5 mins

\*Shield is not compatible for cleaning via autoclave

**Notes:** Kit components are assembled in a clean, not sterile environment. The product has been authorized by the FDA under a EUA as personal protective equipment and has not been FDA cleared or approved.
